

my_std/normal/include
/queue.h

```
graph BT; A[queue_test.cpp] --> B["my_std/normal/include/queue.h"]
```

The diagram illustrates a file inclusion relationship. A box at the bottom contains the text 'queue_test.cpp'. A blue arrow points vertically upwards from this box to a larger box above it. The top box contains the text 'my_std/normal/include' on the first line and '/queue.h' on the second line. The top box has a light gray background, while the bottom box has a white background. Both boxes have a black border.

queue_test.cpp
